BUSINESS MANAGEMENT & ANALYSIS

Web developer with 4+ years of experience shipping scalable web apps using React, Node.js, and PostgreSQL. Proven track record of optimizing performance by 30%+ and leading feature development. Passionate about mentoring juniors and improving codebases.

KEY COMPETENCIES

Technical Expertise: Full-stack development with React/Node and API design (REST/GraphQL).

Performance Focus: Database optimization and system debugging for scalable applications.

Team Collaboration: Agile methodology with strong problem-solving and communication skills.

PROFESSIONAL EXPERIENCE

Chariotforcats, Airspotion

Feb 2022- Present

Wordpress / Woocommerce developer

- Developed and implemented the frontend of a gaming website using HTML, CSS, JavaScript, and PHP, ensuring a seamless user experience.
- Managed the game's database integration, including designing APIs to dynamically display real-time data (e.g., online player counts) on the website.

Fuzznook

Dec 2019 - Aug 2021

Web developer

- Led a large-scale redesign of core platform pages, rebuilding them from scratch with optimized PHP and JavaScript functionality.
- Delivered high-quality results under tight deadlines, earning strong client satisfaction for performance and design improvements.

Aion Online

July 2018 - Dec 2019

Frontend developer

- Built and launched custom WordPress websites from scratch, focusing on aesthetic design and functional excellence.
- Specialized in WooCommerce integration, including Stripe payment processing, to create fully operational e-commerce solutions.
